- Point of Sale

Add-ons

Spire add-ons extend the core functionality for more industry specific features. Robust capabilities make it easier to grow your business.

Payroll

Canadian businesses can now simplify their payroll processing with automatic calculation of provincial and federal deductions. Designed with an intuitive interface, the **Spire Payroll add-on** allows you to easily view employee earnings, benefits, deductions and taxes from one screen.

Production Manager

Efficiently plan production from beginning to end and track progress with real-time information on raw materials, costs and production status. The **Spire Production Manager add-on** lets you control inventory with pinpoint accuracy, reduce unplanned expenses and improve cash flow.

Service Manager

The **Spire Service Manager add-on** will help improve customer satisfaction and increase the efficiency of your service business. This add-on gives you quick access to all service records, making it easy to track the service history of each piece of equipment your customer owns.

Spire Contemporary Features

Spire Browser

Add important URLs to your Spire Browser. Your company's e-commerce site, your Spire consultant's website, or Spire YouTube and more. Having immediate access to your most frequented websites from right within Spire offers more efficiency in your daily work flow.

Spire Friendly API

Easily integrate Spire with custom applications with a no fuss, no mess API application. Enhancing your company's use of Spire for specific and intricate needs that your business requires.

Spire Cloud Modules

Access Spire Cloud Modules from any device, anywhere at anytime. Spire Cloud Modules are extremely useful for the on-the-road sales team needing to place orders directly into Spire, check current inventory stock items or review customer accounts. Give your people the power of Spire at their fingertips and significantly increase work productivity.

Clear & Helpful Communications

Add communications to almost every aspect of Spire. These notes can be added to your Spire Calendar, be printed on documents or set as Pop-Up reminders as alerts. You can also add communications to customer records, inventory items, employee records, vendors and more.

Document & Image Attachment

Attach documents to customer files, vendor files, transactions, inventory items and more. MS Word, Excel, PDFs, JPG, GIF and more. Giving your team the ability to keep more detailed records, minimize human errors and increase efficiency. These are stored directly in Spire for everyone to access versus storing on individual desktops.

Powerful Spire Search

Spire's search feature is incredibly powerful. Look up any piece of information with our powerful built in search function by typing in partial phone numbers, customer numbers, addresses, internal comments, notes and more. Spire will generate a list of possible records related to your query.

Robust Third-Party Solutions

Spire's Third-Party Solution Partners offer niche solutions that will amplify your Spire experience. From cross-border tax solutions to detailed data mining, reporting and more.
